Take a Stand

It is time for the church, pro-family organizations and all concerned citizens to come together to discuss how we, as a community, begin to turn the tide amidst cultural norms and values, which have continued to contribute to the growing attack against the natural family.

Join us for our first-ever Black Conservative Summit (BCS) featuring leading Black conservative and Christian leaders from across the country.

We believe that at no other time in American history has the fight to uphold our nation's founding principles required our undivided attention!
